Elkton Hosts Successful Main Street Site Visit and Training

Elkton, MD – On Wednesday, March 19, 2025, the Elkton Alliance, Inc. participated in two highly impactful events, both providing the opportunity for collaboration and training across Maryland’s Main Street communities. The day began with a Main Street Maryland Regional Site Visit, where representatives from Laurel, Annapolis, Takoma Park, Leonardtown, Bel Air, Aberdeen, Havre de Grace, and Elkton gathered to share insights, discuss best practices, and strengthen partnerships.

Running from 9:30 AM to 12:00 PM, the Elkton Alliance, Inc. provided an engaging tour of Elkton’s downtown business district, highlighting details about current businesses as well as information on new businesses coming to the district and sharing the rich history of the town’s historic buildings. This immersive experience allowed participants to see firsthand the growth and preservation efforts in Elkton’s downtown area.

Later, additional Main Street representatives joined the group for a full afternoon of training, organized by Maryland Nonprofits. This transformative session was designed to enhance the attendee’s skills and knowledge on items important for success within their Main Street organizations.

Elkton was honored to host these impactful sessions, underscoring its strong commitment to the Main Street program and its support for the local business community.
